

# 1. Configuration

You may either create a new role containing the *Lab Monitored Substance* right or include this right into the Default business role. The steps for the first option are:

1. Login as the Lab Administrator
2. Go to the option **User Role Manager**

3. Click **New role**
4. Enter a name, e.g. Monitored data, and select the right *Lab Monitored Substance*, Save

5. Go to the option **User Account Management**
6. Search/select your user name – click view/edit – in the *user account info* tab under **Business role** add the new role 'Monitored data', Save
