

# Posting and Acknowledgement of Results

After a file containing a batch of results is uploaded, screened, and accepted by ADAMS, ADAMS will display a screen containing a summary of the records uploaded. The user is then expected to review the summary and accept (Post) the results into ADAMS, so that they are made available to all relevant parties.

The user may elect to print this summary screen from the browser as an acknowledgement of the transmission.

The screenshot shows a web browser window titled "ADAMS - Microsoft Internet Explorer provided by World Anti-Doping Agency".
