

ADAMS Biological Passport Guide

ADAMS Biological Passport Guide

What's New in November 2019?

Laboratory administrators can now filter their APMU users access to specific Passport custodians.

What's New in March 2019?

- The list of APMU recommendations and Experts' opinions were updated as per the 2019 ISTI effective on March 1st 2019:
 - The option "Passport Suspicious: suspicious further analysis required" was replaced with "Suspicious". Reports previously submitted are not impacted.
 - New options: "Unanimous likely doping" and "APF" were added for APMU users.
 - When an APMU report is submitted with any of the above recommendations, the "Likely Doping" notification type is triggered.
- The Athlete Biological Passport Custodian was added to the subject of the following notifications: "Atypical Steroidal Passport notifications", "Atypical Hematological Passport notification", "Biological result notification", "New data logger uploaded".
